The Challenges Abroad Difference

Creating a community of Global Citizens

Sustainable community impact through our partnership with the FutureSense Foundation

Full pre-departure support (on campus and online), as well as 24/7 support in-country

Supporting our Charity

The FutureSense Foundation

Challenges Abroad supports international development through our partner charity, [the FutureSense Foundation](#). They have a team based in-country year-round that not only ensures that our programs form part of a sustainable development plan that will benefit the community long-term, but they also support you throughout your program. Our teams act as mentors in helping you develop key skills and competencies. Our partnership ensures that your work is meaningful and gives you a chance to make a real difference.

Going Carbon Neutral

We have partnered with an organisation called [Evergreen](#) to neutralise the carbon footprint generated by your trip. With Evergreen, we will be planting trees in Kenya and Nepal, supporting the local community in the area, generating employment and neutralising carbon emissions. In addition we encourage students to participate in activities such as tree planting and reducing their use of plastic.

In Cambodia, over 16% of families live below the poverty line. Only 49% of eligible students enroll in school and in the community where we work, secondary school drop-out rates are over 20%.

By participating in this program, you'll be addressing these issues as you spend 2 weeks working at a rural school in Battambang, delivering a range of educational workshops. Supported by our team on the ground, you have the chance to take ownership of this program by using your skills to design hands-on and engaging activities. Your goal is to inspire young learners in their education!

Program Itinerary

Days 1 & 2: Saturday & Sunday

When you arrive at Siem Reap International airport you'll be welcomed by a member of our team to kickstart your adventure! They'll take you to your accommodation in Battambang, help you settle in and organise your welcome dinner. The next day you'll have a full orientation to your project and our team will show you around town so that you can get your bearings. There will be plenty of time to explore and get to know your new home!

Days 3-7: Monday - Friday

Monday will be your first day working with the local community! You will be working in our partner schools to deliver exciting workshops that inspire children in their education and help to build their confidence. You could be delivering workshops on topics such as conversational English, STEM, creative arts and environmental awareness.
